Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 01/22/2007 has been entered.

2. Due to amendments and persuasive arguments by applicant, the previous rejections of record based on Nichols et al. have been overcome and are hereby withdrawn.

Claim Rejections - 35 USC § 102/103

3. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

4. Claims 36-39, 43, 45-47 are rejected under 35 U.S.C. 102(a) as anticipated by or, in the alternative, 35 U.S.C. 103(a) as being unpatentable over Ohta et al., for reasons cited in previous Office actions.

Response to Arguments

5. Applicant's arguments filed 01/22/2007 have been fully considered but they are not persuasive.

6. Regarding Ohta et al., applicant argues that "Ohta does not teach the specific latex particulates of the present invention, nor does it teach the released blocking groups". However, the only element that applicant actually points as allegedly being absent from the reference is the "released blocking group", which include **any** compound that could potentially serve as a blocking group, i.e., the halides that are among the compounds released from the sulfonating agent used to prepare the acidified latexes of Ohta et al. Compounds, such as chloride, released from sulfonating agents such as chlorosulfonic acid (See bottom of ¶ 68), are the same as the corresponding groups that would be released from the blocking groups, such as chloride. As such, the final product comprises the same latexes and the same released compounds, as in the present claims, if even if arrived at by a different route, i.e., from the sulfonating agents.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dr. Kelechi C. Egwim whose telephone number is (571) 272-1099. The examiner can normally be reached on M-T (7:30-6:00).
